8:22-cv-01800-KES Fitness International vs Leah Alspaugh

Motion for Certificate of Merit

In opposition to the civil proceedings of Fitness International vs Leah Alspaugh. The allegations for trademark infringement and the request for injunctive relief have temporary restraining order request to quash the granted of restraining and move to an adjoined agreement between Fitness International, its agents, its officers, its agents, its employees, and Pro Results and LA Fitness. Leah Alspaugh agrees to not use the LA Fitness trademark of a black and yellow in any of the clubs not only does it misrepresent the colors of LA Fitness but it also recognizes the Ukrainian colors which we are at odds with. In the past six months Fitness International officers and employees have neglected the responsibilities to keep our clubs safe and operating. In conjunction with that they have allowed the capacity of alien individuals to enter the club act as employees and interfere with our internal data. The principle place of business where all of our clubs are deposited was compromised. The lives of the public have been at public threat to our nation because of these activities. The use of all of the equipment by the employees and the members was by equipment that was listed under my name and my employee address. When I contacted the CEO at his email address two individuals came to the club wearing uniform that was alien to LA Fitness employees and by use of the corporate number I was able to deter them from coming back into the club. Both plaintiffs in this case provided false statements about presenting me with a no trespass letter and representing me as an executive and my employment history was also inaccurate. The allegations against the Secretary of State causing fraud too were false. CT Corporation is a co-conspirator to this invasion of alien people into our clubs. With no hiring manager and no operations managers in the clubs or in the corporate office this caused a true threat to our company and its members. There was use of a mobile service to cause a hybrid shift in data and security in between our company and its powers. Anyone who works for LA Fitness and understands the components of the clubs would not shift this enormous fidelity to a hybrid location. A corporation must be domiciled within its principle place of business. One must have authority to do this and as an employee you only have the authority to do this. Also the transfer of the corporate contact number to Georgia and change to a national number is far beyond the grasp of the outfit of LA Fitness. It is beyond me to see that the lack of responsibility to our paid employees has caused such an economic impact on our society. The refurbishing of the clubs was a part of my agreement with Pro Results and LA Fitness. Fitness International was not in this agreement. A fitness club does not operate on hybrid status and it is beyond me that the oversight of LA Fitness has been neglected. I do not find that Fitness International is entitled to any certificate of merit on these facts. I do request to the courts a certificate of merit in a matter of 28 days to LA Fitness and Pro Results in support of my goodwill to this fitness club, city, state and federal employees. I agree not to contact any Fitness International affiliates upon this matter as I was trained to work with these people they do not understand the common impact on society. I do indeed terminate all injunctions with the gain of fiduciary trust and trust of the American people by alien affiliates. Most definitely establish order and responsibility to LA FITNESS AND PRO RESULTS AFFILIATES.
